Hair: med to dark golden brown, ginger highlights

Best colours: warm bold hues

Neutrals:

Other Colours:

...

Avoid:

Soft pastels, dusty grey tones, too cool blue tones

Notice:

Dark brown will look better near the face than black.

Golden accessories look a bit better than silver.

Think more of earth tones when you choose clothes.

Pure white is sometimes too hard against the face so go for a more **off-white** or light beige.

This Colour Type is similar to Deep Winter, but has warmer undertones.

Thus if you have this Colour Type you can borrow in some situations from Deep Winter.
